## Compatible with

Dual-screen configuration

Infinity all-in-one PC

Laptop

Micro PC\*

\*Requires SmartPower

## Features

The WardRound is our height adjustable mobile cart with a large work surface. With no storage, it's lightweight and easy to move. It can perfectly positioned at the end of a patient's bed and used for electronic charting, often paired with a large screen. It can also be used as a dual screen workstation.

- ✓ Simple hand-operated height adjustment.
- ✓ Can be paired with a large screen and used as an electronic charting cart.
- ✓ Can safely accommodate dual screens to help increase workflow efficiency and have more information available at a glance.
- ✓ Can be configured to allow for the addition of a range of accessories.
- ✓ Work surface is durable and resistant to hospital cleaning agents.

## Benefits

- Lightweight and easy to manoeuvre.
- Conveniently placed grab handles allow for easy movement.
- Large castors provide smooth and stable movement even across uneven surfaces, such as thresholds.
- Designed for infection control and ease of cleaning.
- An ergonomically designed base allows the user to find their perfect standing or seated position.
- Height adjustable to suit any user.
- Large work surface for preparing drugs and paper documents.
- Comprehensive 5-year cart warranty.

## Areas of use

The WardRound is ideal for providing access to electronic patient records in areas such as:

- A&E / ED
- Theatres
- Wards
